Auto Insurance Medical Payments Now Available

State Farm Mutual Automobile Insurance Company of Bloomington, Illinois, announces a new improvement in automobile insurance medical payments protection. The new, broadened benefits apply to both new policies and to those already in force in this state.

Most important feature of the new protection is to cover the policyholder and members of his family for medical and hospital bills arising out of any auto accident. Where formerly this coverage applied mainly to accidents involving only the insured car or a substitute, it now covers the family while pedestrians, or in any accident involving a "land motor vehicle."

If a junior is struck by a motor scooter or other vehicle while at play or elsewhere, or if another is hurt by a car while shopping, father's auto medical payments insurance will now pay the bills up to \$500 per person. Also, any person struck by the insured car is similarly protected, whether or not the driver is responsible for the accident.

These broadened benefits are being extended immediately to two million State Farm members in over 30 states, according to J. Homer Solomon, local agent. Actually, more than 80 per cent of State Farm's nearly three million members now purchase this optional medical payments coverage, Mr. Solomon said. New purchasers will receive the extra protection as a part of the policy, if they sign up for the medical payments clause.

Added cost for the new benefit will average only fifty cents each six months for \$500 per person. The coverage can be obtained in larger amounts up to \$2,000 per person.

Burglars Break Into Benton, Sharpe Schools and Two Business Firms

A wave of break-ins swept over Marshall County last week-end and Sheriff Billy Watkins is conducting sweeping investigations.

Biggest burglary was at Benton High School. Stolen were a camera, school stamps and \$61.50 in cash. The thief entered the basement, then went to the school superintendent's office, broke a door window and unlocked the door.

In their haste, the burglars overlooked \$100 in cash in the office.

The burglary was discovered last Friday morning at 8:15 o'clock. It presumably occurred last Thursday night.

The Sharpe High School building was entered last Friday night, but nothing was reported missing. The intruder prowled the building, however, in their futile search. The break-in was reported Saturday at 9 a.m.

The Lane Lumber Co., on North Main Street in Benton, was broken into Saturday night or early Sunday morning. The break-in was reported to the sheriff at 10:50 a.m. Sunday. Nothing was reported missing.

Burglars also broke into the Ashland Service Station, across Main Street from the Phillips Chevrolet Co., and took \$3 in currency. The break-in was either Saturday night or early Sunday morning.

Sheriff Watkins has questioned several suspects but thus far no charges have been filed.

1,500 At Dotson Funeral

Jamie R. Dotson, 45, died at a Mayfield hospital Friday at 5 p.m. He had been a patient there since Monday, and underwent surgery Thursday. He had been in ill health for the past two years.

Mr. Dotson, a prominent farmer of the Maple Springs community, was a native of Marshall County and had lived his entire life in that community. He was a member of the Maple Springs Methodist Church and took an active part in its activities. He was magistrate for Marshall County in his district for 12 years. He made the race two times unopposed.

His survivors include his wife, Mrs. Anice Dotson; two sons, Dotson of Mayfield; two daughters, Mrs. Louise Dotson of Route 5 and Miss Jackie Dotson, at home; parents, Mr. and Mrs. R. L. (Bob) Dotson of Benton Route 5; one sister, Mrs. Leta Richardson of Mayfield Route 5, and one brother, the Rev. R. L. Dotson Jr., of Fulton.

Funeral services were conducted Sunday afternoon at the Maple Springs Methodist Church. The Revs. Fred Alexander and A. G. Childers officiated. Burial, by the Linn Funeral Home, was held in the Fairdeal Cemetery.

A crowd of 1,500 persons attended the funeral, one of the largest ever held in the county. The Unity Quartet composed of Rex Anderson, Elroy Warren and Mr. and Mrs. Kelzie Warren sang. Mrs. Charles Finkel was pianist.

Funeral services for Mrs. Mattie Shaw, 41, were held Monday afternoon at Briensburg Baptist Church. The Revs. T. L. Campbell and J. Frank Young officiated. Burial, by Linn Funeral Home, was in Briensburg Cemetery.

She is survived by her husband, Gillon Shaw, and three sons, Bobby Joe, Buel Glenn and Charles Gillon Shaw.

Other survivors are her father, John P. Baker; two sisters, Mrs. Joe Dunn and Mrs. Eddie Defew of Benton, and four brothers, Chester Baker of Detroit, Mich., and Java, Elvin and Raymond Baker, all of Benton Route 6.

Paul Darnall Will Direct Red Cross Drive In County

Paul Darnall has been named to direct this year's Red Cross Fund campaign and has accepted the appointment.

This announcement was made by Joe Pete Ely, Marshall County Red Cross Chapter chairman.

The drive is held annually during the month of March. Goal for the county this year is \$3,000.

Mr. Darnall said he hopes to have a Red Cross representative visit every home in the county during the drive in order to give every citizen an opportunity to become a member of the American National Red Cross.

Mr. Darnall is executive vice president of the Bank of Benton and is active in city and county civic affairs. He also is former county court clerk and is widely known throughout the county.

Youth Is Killed By Carbon Monoxide

A Palma youth, 19-year-old Eugene Garland, died of carbon monoxide poisoning early last Monday morning while sitting in his car with his girl friend, Peggy Ann Vasseur, 14.

The youth had left the motor of his car running as the couple sat parked in front of the home of Miss Vasseur's sister, Mrs. Kenneth Donohoo, with whom she lived.

The couple apparently sat in the car for some time, only semi-conscious, when the girl aroused enough to open the car door and stumble into the house. She awoke her sister and Mr. Donohoo.

Mr. Donohoo, Alex Poe and the boys father, W. E. Garland, pulled the youth from the car and carried him to the porch of the Donohoo home. He apparently had been dead about an hour.

Sheriff Billy Watkins said the car, a 1937 Chevrolet, had no muffler. Watkins was called to the scene about 2:45 a.m.

Miss Vasseur, daughter of Mrs. Bessie Vasseur, was taken to Riverside Hospital in Paducah. She was in a serious condition for a time but rallied and her condition now is good.

Funeral services for the Garland youth were held Tuesday afternoon at Filbeck - Cann Chapel, the Revs. John Weir Jr. and C. H. Lynn officiating. Burial was held in Bethlehem Cemetery.

The youth worked in a Paducah tobacco warehouse while he was awaiting call to Army duty. Besides the parents, he is survived by three sisters, Mrs. Charles English of Calvert City, Route 1, and Linda Gayle and Diane Garland of Palma; five brothers, Charles, Wayne, Eddie, Larrie and Don Garland, all of Palma, and a grandmother, Mrs. Dollie Brigham of West Gilbertsville.

Crispy Rarebit Is New Taste Treat

A piping hot rarebit, served with a tossed greens salad and crackers as crisp as winter weather, is an ideal mid-winter luncheon treat for all the family. Here's one that is as tasty and nutritious as it is inexpensive. Since it can be made quickly and easily, it's also a welcome timesaver for busy homemakers who must plan luncheon menus for hearty wintertime appetites.

Crispy Rarebit
2 tablespoons butter or margarine
2 tablespoons finely chopped onion
1 (10 1/2 oz.) can tomato soup
1 1/2 cups grated cheddar cheese
1 egg
1/2 teaspoon Worcestershire sauce
16 Krispy crackers

Melt butter or margarine. Add onion and cook until tender but not browned. Stir in soup and cook, stirring constantly, until soup comes to a boil. Add cheese and continue to stir until cheese melts. Beat egg until bubbly. Pour small amount of cheese mixture into egg and return to rest of mixture. Cook, stirring constantly, for 2 minutes longer. Stir in Worcestershire sauce and serve over crackers, allowing 4 to each serving. Garnish with thin slices of stuffed olive and tiny sprigs of parsley. Makes 4 servings.

No Recession is Likley Noings Of

Harold C. McClellan, 1954 president of the National Association of Manufacturers, said today that he sees little prospect for a recession and that the outlook for 1954 is "much brighter with the leveling-off of the cost of living and a steadier dollar."

"I doubt that we will have a recession. We may have some business adjustments as we have had in the past few years. But the outlook is much brighter with the leveling off of the cost of living and a steadier dollar. If we are resourceful and courageous and demonstrate the abilities we have shown in the past we should move forward. On the whole, I believe we can all continue to raise our living standards in 1954."

"Several times recently I have been asked whether I foresee any serious downturn in general business conditions for the year 1954. This is not surprising when you recall that since 1943 we have been hearing from some quarters dire predictions concerning the economy of this country. We have heard it said 'We are about to have a recession, a deep depression, or mass unemployment.'"

"Frankly, I do not see any prospect for a serious downturn in business generally for the year 1954, or for any of the years in the immediate future, provided that two conditions are met: first, that our government in Washington makes proper provision to balance our budget at the earliest possible

moment, and second, that our national government expenditures be reduced to the extent this is possible without impairing our national security.

"I am firmly convinced that our Administration in Washington is doing an excellent job of

managing our economy so it seems to us in the most of our development the future."

Property Must be Listed For Taxes by March 1

FRANKFORT—Kentucky property owners are required to list their property with the county tax commissioners use all available means in an effort to assess all property, it is still the taxpayer's responsibility to list his property.

All real estate, tangible, and intangible property owned by a person should be listed with the county tax commissioner. Tangible property includes automobiles, household furnishings, inventories, farm machinery, and livestock, to name only a few classes. Intangible property includes such items as stocks and bonds, mortgages, notes and accounts receivable.

Property owners listing property with the county tax commissioner should compare the assessed values of their property with those values assigned to similar properties. In this manner, the owner can be assured of a more equitable assessment.

Equal assessment of similar properties is especially important in view of state law which requires equal assessment of similar property in all counties by the Kentucky Tax Commission.

House members supporting the cigarette tax reported varying degrees of opposition from their districts after the long week-end visits home. Some fear they won't be able to overcome farm group opposition in their bids for re-election in 1955. Others hope to convince the voters that they can help produce a broad-base tax program in the 1955 legislature and relieve the pressure aroused by the program approved last week.

tax money from wages and salaries. This served to call attention of the legislators that the bill is an increase of 50 per cent in income taxes over the next two years and mustered 24 House votes. There was no strong organized opposition to either the alcoholic beverage nor pari-mutuel tax boosts.

Bible School Lesson
BY DR. KENNETH J. FOREMAN

Religion and A. A.

Lesson for January 24, 1954

SINCE this week's Bible study has to do with temperance, this is a good place to call the reader's attention to a notable little (100 pages) book, "A Sober Faith," by G. Aiken Toomey. (Macmillan Co., New York City, \$3.00.) The author, a young minister, has been impressed by two things: the harm liquor does, and how little the church has done to help its victims. He believes that both AA ("Alcoholics Anonymous") and the church have something to learn from each other.

The Problem Drinker

The Alcoholics Foundation figures that in America, between three million and four million persons are "problem drinkers." A problem drinker is not yet an alcoholic; but he is next door to being one. He has a regular king-size hangover every Monday morning, only as he goes on and on. Dr. Foreman the hangover runs into the week till toward the bottom of the slide he would regard himself as fortunate if all he lost was a mere weekend. He may not be quite an alcoholic; but he is a problem to his friends, his family, his boss, his business, and to himself. But he does not realize the worst feature of his problem: he is only one step removed from being an alcoholic. One thing Mr. Aiken suggests, he says always arouses controversy. But why should it? There is just one sure way of not being an alcoholic and that is not to become a problem drinker. And there is only one sure way of not being a problem drinker; that is not to start with the first drink. Yes, it is as simple as that.

The Alcoholic

The alcoholic is more than a problem drinker. He is a thoroughly sick man. No effort of will, no sanitation, no advice, no fear of disgrace or pain or death—nothing short of sheer force will keep him from getting drunk and staying so. These are the people whom AA works and of whom fact AA is composed. AA began about 12 years ago with a doctor who had lost his patients and a business man whose business had folded up—both on account of liquor.

The Twelve Steps

Mr. Aiken's book goes through the "twelve steps" which are both the creed and the practice of AA, shows how they work, and calls special attention to the genuinely religious quality of the program. Here are some of the Steps: 1. "We admitted we were powerless over alcohol." (Conversion begins when a man realizes and admits his own helplessness.) 2. "We made a decision to turn our will and our lives over to the care of God as we understood him." (This is of the essence of religion.) 7. "We humbly asked God to remove our shortcomings." (An alcoholic who wants to be "cured" and yet go on as he is, is a hopeless case.) 9. "We made direct amends to people we had harmed, wherever possible." (It is very impressive, Mr. Aiken writes, to see an ex-alcoholic paying back alimony freely, or reviewing some shady business deal in which he had come out with more than his share.) 11. "We sought to improve our conscious contact with God as we understood him, praying only for knowledge of his will for us and the power to carry it out." 12. "We tried to carry this message to alcoholics and to practice these principles in all our affairs."

AA and Religion

Questions will occur to every one interested. What exactly does the AA group do to help alcoholics? Is the religion of AA the same as Christianity? Why don't the churches have as good a record for saving such cases? "A Sober Faith" is an attempt to answer such questions. One of the author's comments must be quoted here: "Impotence, dependence, fellowship, service. They are the stages in a profound religious experience. If the (reclaimed) alcoholic hasn't got religion he has something suspiciously like it!" Mr. Aiken poses another question: The AA assumes that God can be known almost by instinct. Is it not true, rather, that we would not have known about the God of faith if he had not revealed himself in Christ?

Soil Conservation Notes

By Herbert Anderson
B. M. Copeland, Tatumville, plans to dig a large pond for fish and stockwater during 1954.

Soil Conservation Service technicians working for your Marshall County Soil Conservation District will help you locate, survey, and build your farm pond in 1954. Farmers who apply to the ASAC committee for financial help in building ponds will receive twelve cents a cubic yard. In the past the payment rate has been ten cents a yard.

Delmo Harper, Mt. Moriah, completed the digging of a large pond in December. Winter and spring rains will fill it for summer use.

I helped Hoy Greenfield of Briensburg stake a pond week before last while the snow was still on the ground. Greenfield said "I need a pond here in the center of the farm so my cattle won't have to walk so far for water."

J. P. Stubblefield, Sarpe, cleared several acres of land by hand last year. A tractor drawn bush and bog disc was used to prepare the seedbed. Seed will be sown in February and March.

Hoy Thompson, north of Hardin, came in the office the first of January and said, "I am ready to start terracing that field on the road."

The next day we started staking the terraces. His son, Ben, operated the level. I carried the level rod. Hoy drove the stakes.

The terraces are being built with a disc terracing plow rented from the district. Four or five were built before the snow and rain began.

Recently revised conservation needs estimates for Marshall County reveal that 1,600 miles of terraces are needed on the 20,000 acres of sloping row crop land.

Before these are built, however, 1,200 acres of sod waterways to serve as terrace outlets would need to be established.

The United States Tax Court recently handed down a ruling which gives conservation farmers a very definite break. The ruling is: "The cost of terracing farms to check erosion is deductible as an ordinary and necessary business expense. The work does not constitute a permanent improvement."

This means that the cost of terracing can be deducted as a necessary business expense the year they are installed rather than being capitalized as a permanent improvement.
